FULL-TEXT PAPERS

Session 1: GIS-based Conservation of Natural Heritage Sites and Natural Resources

Избор на обекти при създаването на геопространствена информационна система за популяризиране на природното и културното наследство по трансграничната долина на р. Струма	5-10
Галина Безинска, Пенка Кастрева, Иван Дреновски, Красимир Стоянов Югозападен университет „Неофит Рилски”, Благоевград, България	
Bucegi mountains between development of new ski areas and preservation of natural heritage – analysis of snow related parameters in the context of climate change	11-21
Florentina Popescu, Florina Ardelean, Mircea Voiculescu West University of Timisoara, Romania	
GIS analysis of landscape diversity in Slovenia	22-31
Rok Ciglič, Drago Perko Anton Melik Geographical Institute, Research Centre of the Slovenian Academy of Sciences and Arts, Slovenia	
NDVI changes and their relationships with climatic parameters for the south-eastern part of Bulgaria	32-41
Roumen Nedkov ¹ , Emiliya Velizarova ² , Ibrahim Molla ² , Mariana Zaharinova ¹ ¹ Space research and technology institute – Bulgarian academy of sciences ² Forest Research Institute – BAS, Sofia, Bulgaria	
Using a GIS web-based tool to map and assess ecosystems and their services in a very high biological and cultural area: the case of Alto Mayo watershed (Peru)	42-53
Daniele Codato ¹ , Mark Mulligan ² , Salvatore Eugenio Pappalardo ¹ , Francesco Ferrarese ¹ , Massimo De Marchi ¹ ¹ University of Padova, Italy ² King’s College London, UK	
Landslides monitoring near Kranevo by means of InSAR	54-63
Hristo Nikolov ¹ , Mila Atanasova ² ¹ Space Research and Technology Institute –BAS, Sofia, Bulgaria ² National Institute of Geophysics, Geodesy and Geography – BAS, Sofia, Bulgaria	
Overlapping of onshore oil activities and biodiversity in Italy: spatialising the guidelines for the Environmental Impact Assessment in “Val d’Agri” Concession, Basilicata, South of Italy	64-74
Alberto Diantini, Daniele Codato, Eugenio Salvatore Pappalardo, Francesco Ferrarese, Federico Gianoli, Massimo De Marchi University of Padova, Italy	
GIS-Modelling of Landscape Aesthetic Properties to Cultural Heritage Site Restoration	75-85
Eugeny Kolbowsky, Uliana Medovocova Lomonosov Moscow State University, Russian Federation	
Remote sensing for Natura 2000 habitats - mapping and monitoring	86-93
Stefan Genchev National Institute of Geophysics, Geodesy and Geography – BAS, Sofia, Bulgaria	
Tracing landscape changes in Panagyurishte ore region	94-102
Hristo Nikolov, Denitsa Borisova Space Research and Technology Institute –BAS, Sofia, Bulgaria	
Yasunization of the Earth: from the case of Amazon basin towards a world atlas of unburnable carbon	103-113
Daniele Codato, Salvatore E. Pappalardo, Serena Caldart, Alessandro Marcozzi, Roberto Saitta, Maura Zanatta, Alberto Diantini, Francesco Ferrarese, Federico Gianoli, Massimo De Marchi University of Padova, Italy	

OpenStreetMap for National Parks 114-118
Oleg Seliverstov¹, Ievgeniia Luchnykova²
¹ Kharkiv National University, Ukraine
² National Scientific Center ISSAR, Ukraine

GIS-analysis for Landscape and Watershed Modelling at regional level 119-126
Eugeny Kolbowski, Oxana Klimanova
Lomonosov Moscow State University, Russia

Man-Made Relief: Anthropogenic Impact on Natural Earth Surface 127-133
Vanya Stamenova, Stefan Stamenov
Space Research and Technology Institute –BAS, Sofia, Bulgaria

Session 2: Conservation of Cultural Heritage Sites using GIS

Data layer for protection of cultural heritage – designed landscapes 134-143
Marketa Flekalova, Hana Matejkova, Ondrej Sestak, Lenka Trpakova
Mendel University in Brno, Faculty of Horticulture, Department of Landscape Planning, Czech Republic

Historical reconstruction of the battle for Normandy 144-148
Klara Čevka
University of Ljubljana, Slovenia

Cultural Landscape Palimpsest Area Modelling: The Case of Mediterranean Basin 149-155
Oxana Klimanova, Eugeny Kolbowski
Lomonosov Moscow State University, Russia

Learning Environment for GIScience in the era of flying robot 156-165
Massimo De Marchi, Eugenio Salvatore Pappalardo, Daniele Codato, Alberto Diantini, Federico Gianoli
University of Padova, Italy

The archaeological potential of Varghis Gorges karst (Perșani Mountains - Romania). Preliminary stages in a Geographic Information System 166-175
George Murătoareanu¹, Roxana Cuculici², Marian Cosac¹, Daniel Vereș³, Alexandru Radu⁴, Dan Lucian Buzea⁵
¹ Valahia University of Târgoviște, România
² University of Bucharest, România
³ Institute of Speology Emil Racoviță, Cluj Napoca, România
⁴ Department for Culture, Cults and National Cultural Patrimony Dâmbovița, România
⁵ National Museum of Eastern Carpathians, Sfântu Gheorghe, România

GIS analysis in cultural landscape protection. Example from Czech Republic 176-182
Jozef Sedláček, Alena Salašová
Mendel University in Brno, Czech Republic

Kabiyuk Project: exploration and conservation of archaeological site using remote sensing methods and GIS technologies 183-191
Stefan Stamenov, Vanya Stamenova
Space Research and Technology Institute –BAS, Sofia, Bulgaria

Session 1: GIS-based Conservation of Natural Heritage Sites

Actual State of Poda Protected Area Using SAR Data 192-198
Roumen Nedkov, Iva Ivanova, Mariana Zaharinoва, Natalia Stankova
Space Research and Technology Institute –BAS, Sofia, Bulgaria
